### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,2 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Yokoya.

Yokoya discloses the claimed invention, including an exhaust pipe **62** protrudes within an exhaust chamber, and having an opening which faces the bottom thereof, and spaced therefrom as claimed. Since the opening is slanted, a measurement may be made at any point therealong so as to satisfy the specific claimed distance.

3. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Japan '037.

Japan '037 discloses the claimed invention, including a pipe **71** having an opening end oriented and positioned as claimed, and extending to another second exhaust chamber.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lecours et al., Slattery, Ford, Smullin, LeQuire and Miles, Jr. teach the claimed invention.
